4

Conclusions

# Business problem

1

Lack of expertise in  
the film industry.

2

Uncertainty about  
audience preferences  
and market trends.

3

Need for actionable  
insights to guide  
film production  
decisions.

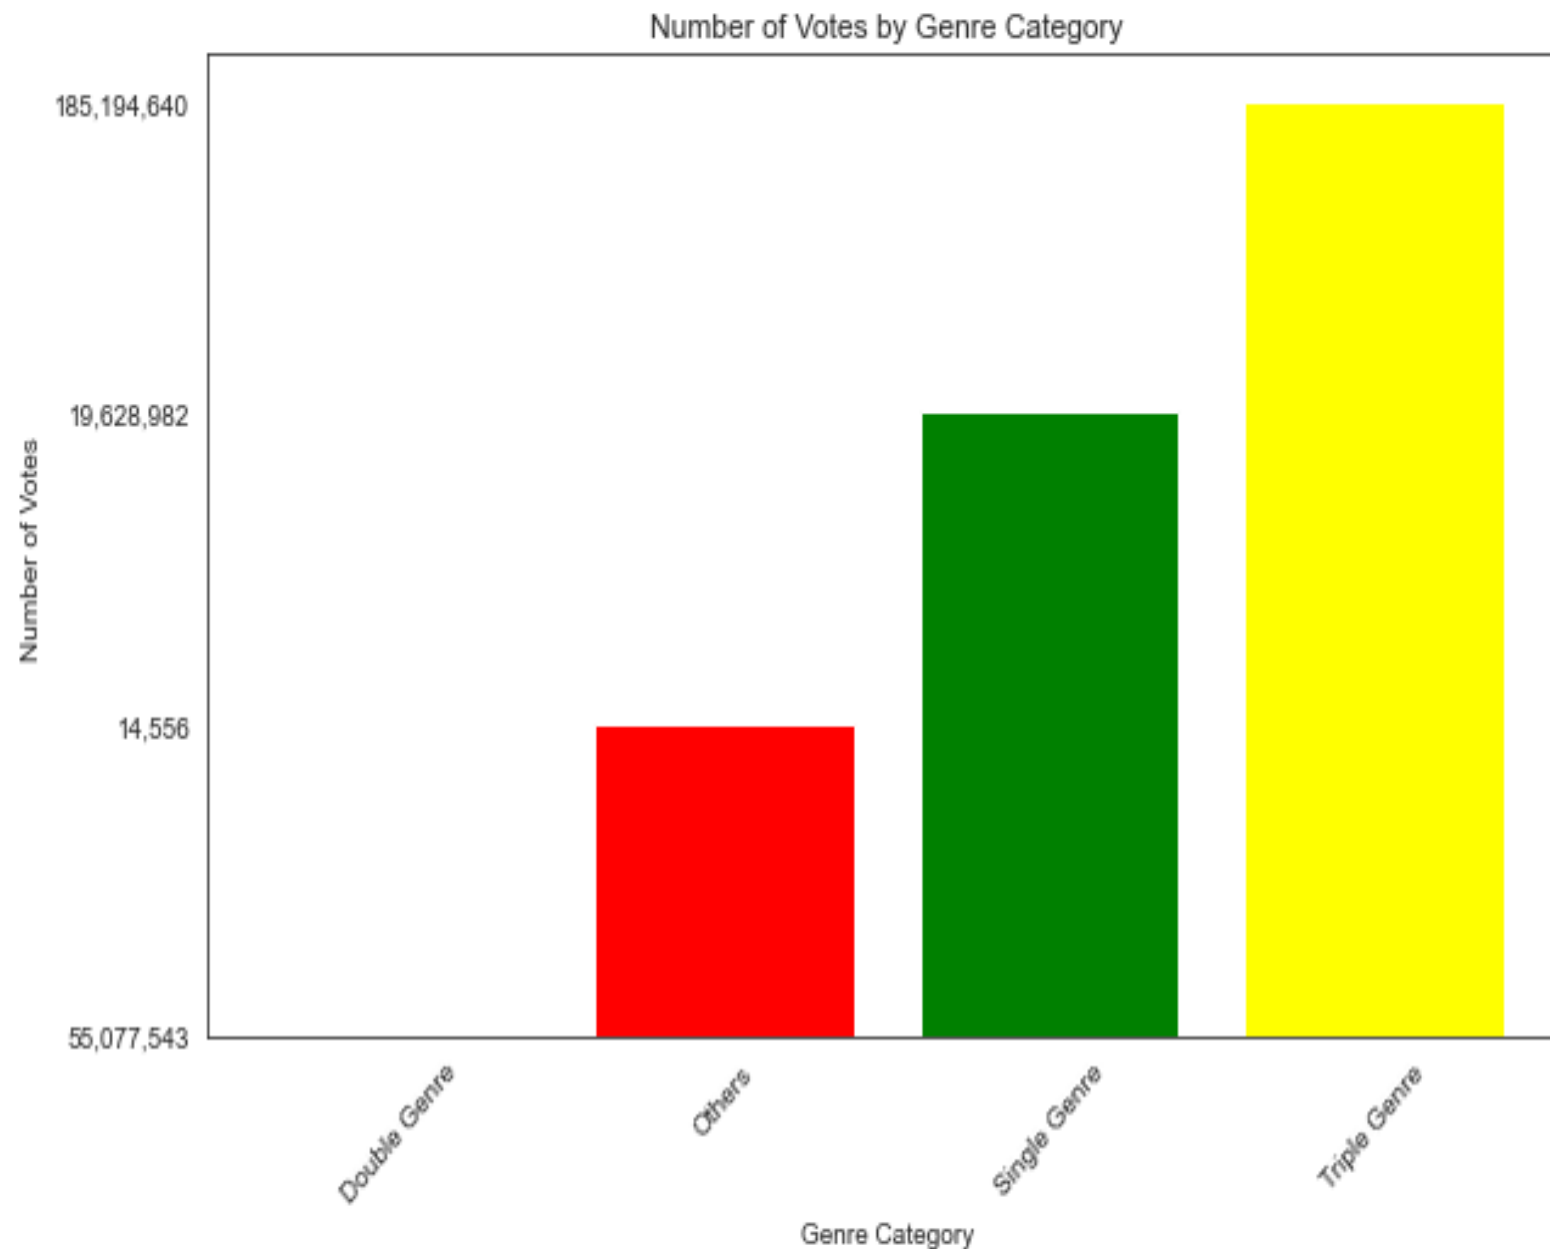

# Data and Methods

- **Data Sources:** Utilized movies websites dataset containing movie attributes such as runtime, genre, ratings, and number of votes.
- **Data Cleaning:** Removed missing values and outliers, standardized genre categories, and transformed runtime into intervals.
- **Analysis Methods:** Employed descriptive statistics, correlation analysis, and visualization techniques to explore relationships between variables and identify trends in audience preferences.
- **Findings Interpretation:** Analyzed correlations, trends, and patterns to derive actionable insights for film production strategies.

# Results

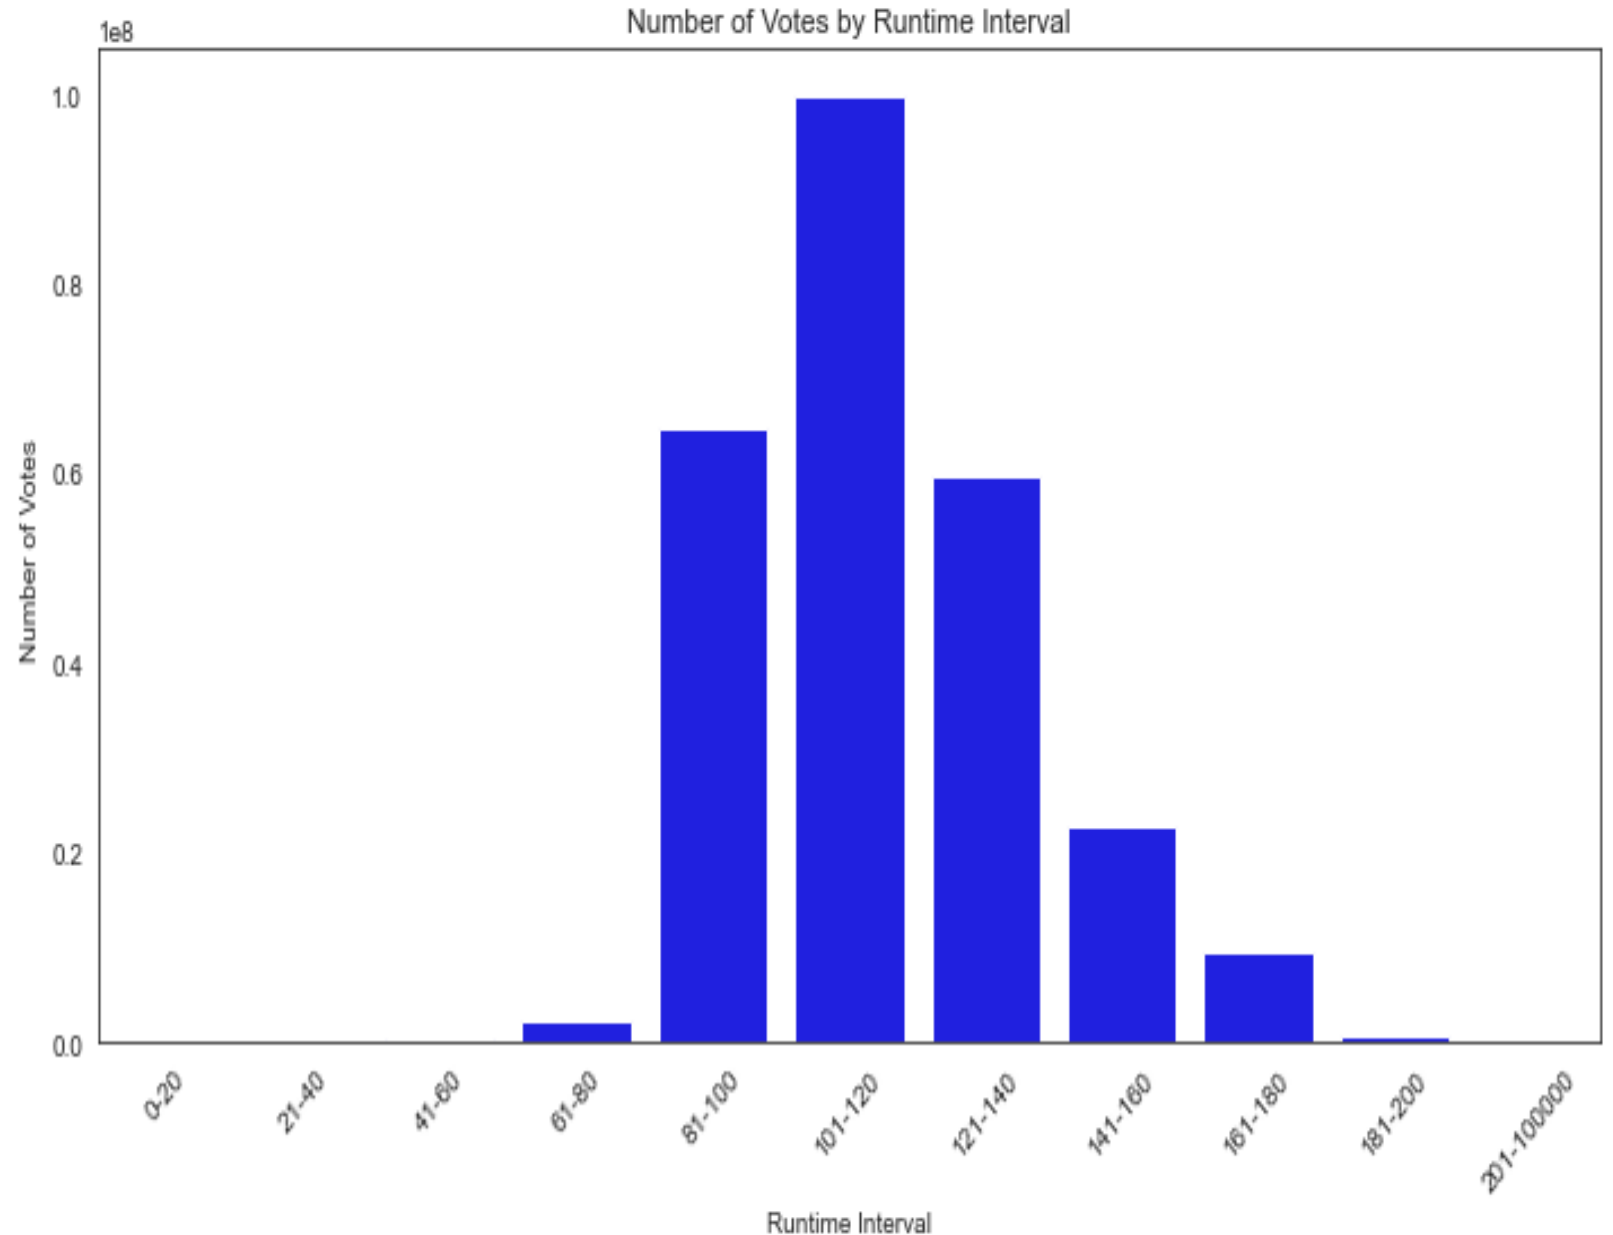

Multi-genre films attract more viewer engagement than single-genre films.

.

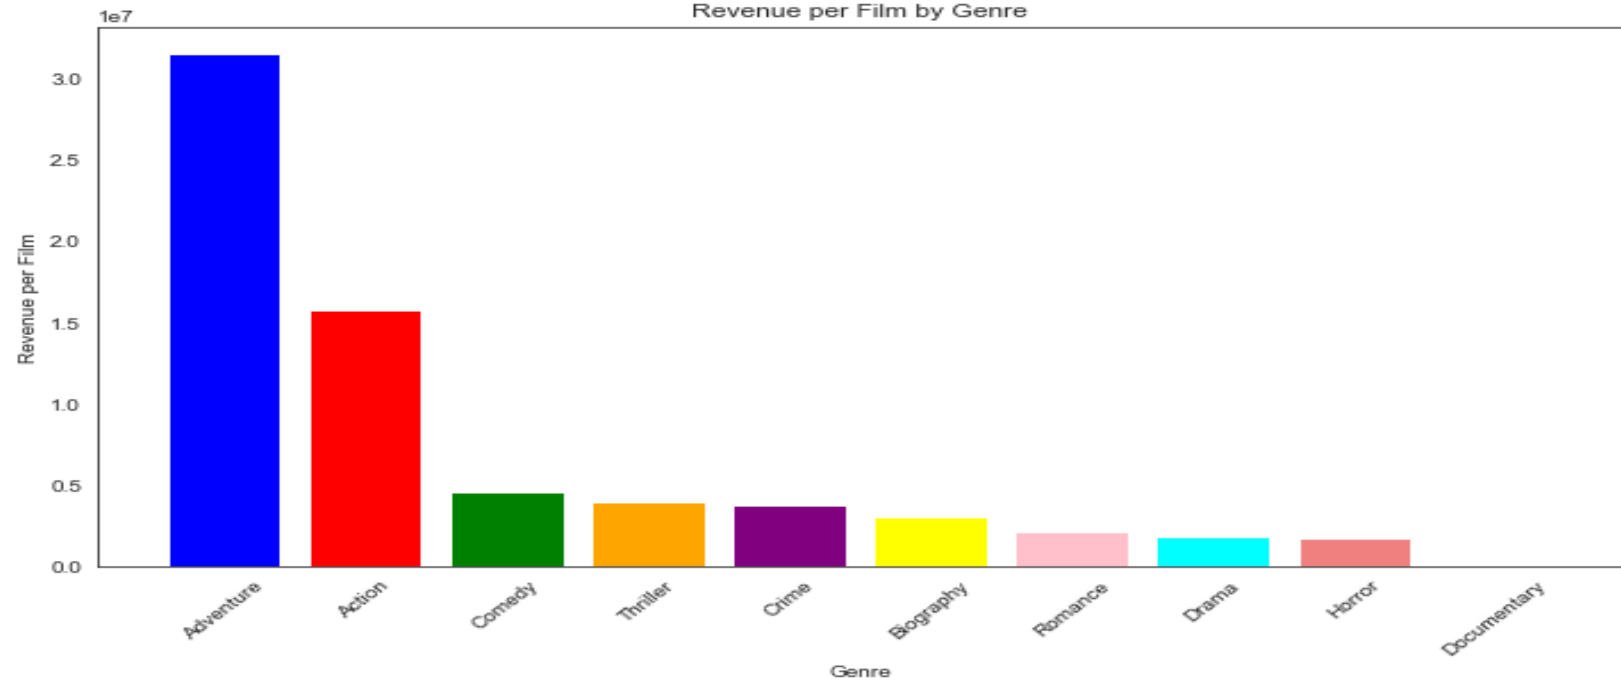

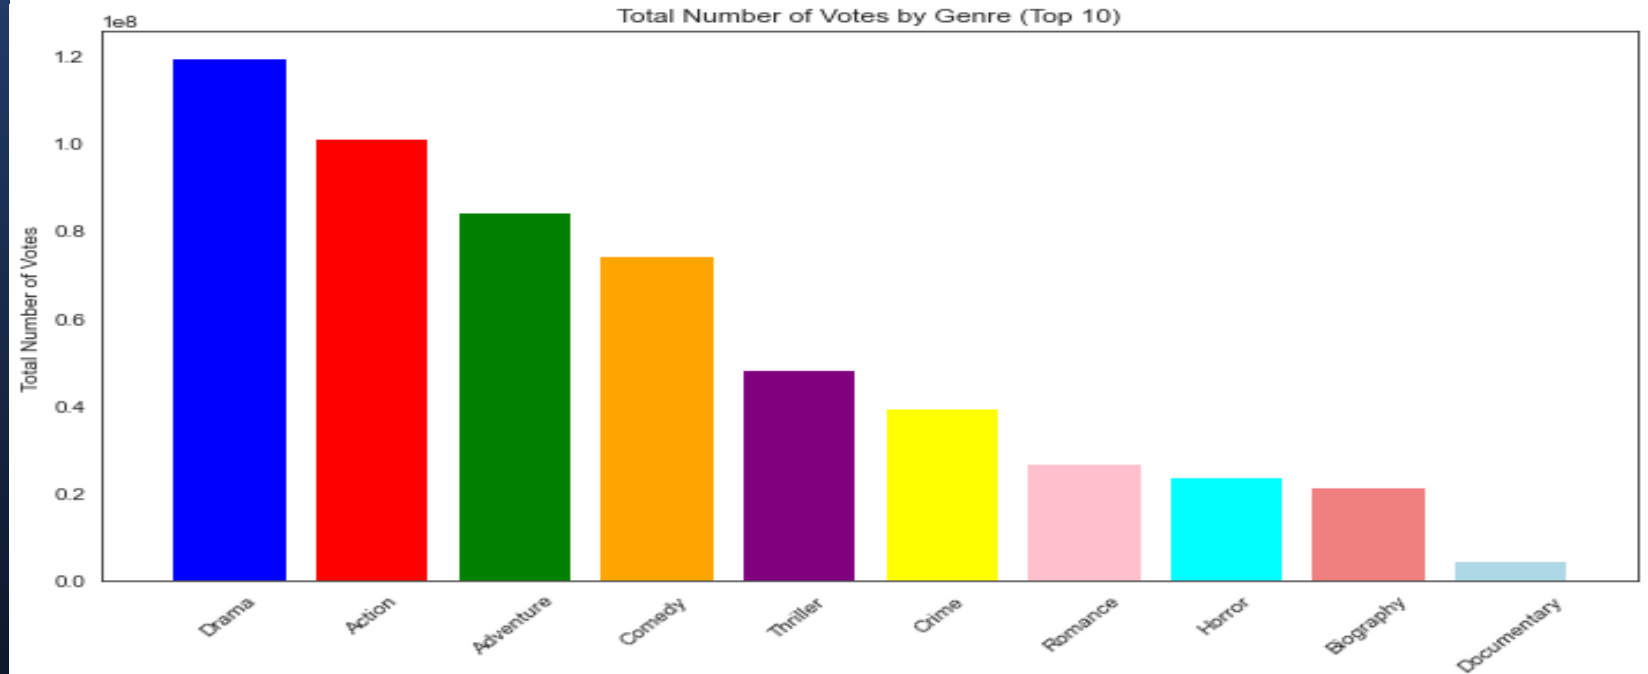

# Results

Films with runtime durations between 101-120 minutes receive the highest number of votes.

# Results

Drama, action, and comedy genres dominate the box office, while opportunities exist in romance, horror, crime, biography, and adventure genres.

# Conclusions and Next steps

## Conclusions

- **Embrace Multi-Genre Productions:** Produce films that blend multiple genres to broaden audience appeal and maximize market potential.
- **Optimize Film Length Strategically:** Tailor film lengths within the optimal runtime interval to enhance viewer engagement and satisfaction.
- **Diversify Genre Offerings:** Expand into underrepresented genres to tap into niche markets and diversify the studio's portfolio.

## Next steps

- Refine the analysis by incorporating additional data sources or refining existing models to enhance the accuracy and robustness of the insights.
- Conduct market research and audience surveys to validate the findings and gather further insights into audience preferences and behavior.
- Implement a pilot program to test the effectiveness of the recommendations and iterate based on the results.
